

User Manual

S5 & S6 Rear Rack

↑ Tools & parts in the box:

- S5 & S6 Rear Rack
- Hex head screws (12 mm / x2) + Washers (x2)
- Socket head screws (16 mm / x2)
- Allen key N°4
- Wrench (8mm)

1

↑ Position the rack over the rear wheel. Loosely screw the two **washers** and **hex head screws** with your hands to hold the rack in place.

2

- ↑ Make sure that the rack stays (A) are positioned on the inside of the rear dropouts (B). Tighten the two socket head screws using Allen key N°4.

3

4

- ↑ Fully tighten the two hex head screws using the wrench.

- ↑ Tighten the rack stay screws using Allen key N°4.

Make sure all screws are tightened properly. The recommended torque is 4Nm.

Specifications:

IMPORTANT SAFETY INSTRUCTIONS

- 1. WARNING:** Read and follow all product instructions and warnings, including information on the rider manual, including the installation and care manual for this product.
- 2. WARNING:** The maximum load capacity is 15 Kg. Do not exceed the bicycle manufacturer's permissible load.
- 3. WARNING:** The VanMoof Rear Rack is not compatible with child seats. Do not fit a child seat to the VanMoof Rear Rack.
- 4. WARNING:** Check with your bicycle's manufacturer to verify proper fit, mounting points, bicycle cargo load capacity.
- 5. WARNING:** This VanMoof Rear Rack is not designed for carrying anything other than panniers or rack-specific bags.
- 6. WARNING:** Do not modify, disassemble or otherwise tamper with the VanMoof Rear Rack in any way.
- 7. WARNING:** The VanMoof Rear Racks are not suitable for towing trailers of any sort.
- 8. WARNING:** The bicycle may behave differently (particularly with regard to steering and braking) when the VanMoof Rear Rack is loaded. Use caution while driving.
- 9. WARNING:** Position reflectors and lights so that they are not obstructed when the VanMoof Rear Rack is loaded.
- 10. WARNING:** Make sure your load is evenly balanced and secure before every ride (i.e. no loose straps to get caught in the wheels).
- 11. WARNING:** Do not carry your pets or children on the rear carrier. It may lead to serious injury.
- 12. WARNING:** Ensure all screws are properly torqued (4Nm).

FAILURE TO COMPLY WITH THESE WARNINGS MAY LEAD TO SERIOUS INJURY OR DEATH.

Ongoing Maintenance:

Improper installation of screws may lead to product failure, causing serious injury. Do not exceed specified torque values. Periodically inspect screws and retighten if required.

Frequently check to make sure that all the carrier hardware is properly torqued per these instructions. Check to make sure that the carrier mounting screws are properly tightened and secure the VanMoof Rear Rack to the bicycle frame. Periodically check for any signs of cracking or failure and discontinue use if the rack is damaged.
